	Amman – City Tour – Jerash – Dead Sea	08:00	18:00	150 km	3 hours	Dead Sea	B/-/D

In the early morning we visit the old and new Amman as part of a city tour and visit the citadel with the Archaeological Museum, the well-preserved Roman theater and a visit to the souk in Down Town, which will give you many new impressions. The citadel rises high above Amman and is one of the earliest fortifications. Numerous Roman, Byzantine and early Islamic objects have been secured there during various excavations, and the excavations have not yet been completed. Important buildings include the Temple of Hercules, the Umayyidooan palace complex and the Byzantine church. The Roman theatre was built around 151 AD and offered space for around 6000 spectators. It has been partially restored and is now used again for cultural events.

**Jerash** is one of the best-preserved ruins in the Roman world. In Roman times, Jerash was called Gerasa and was a member of the Decapolis, an economic federation of ten different Greco-Roman cities. Even today you can walk through the triumphal arch, which the Gerasener built in 129 AD in honor of Emperor Hadrian. The construction method of the time was so advanced that even today many parts of the city are original. However, other parts have been conscientiously restored with a lot of effort. You can walk the 600m long Silk Road, on which car tracks are still visible today.

## The Dead Sea

At 410 meters below sea level, the Dead Sea is the lowest place in the world. Jordan's Dead Sea coast is one of the most spectacular and inspiring landscapes in the world. For visitors from all over the world, it is still as much a magnet today as it was for the kings, merchants and prophets of antiquity. Major investments in the Dead Sea regions have enabled the construction of roads that will provide easy access to the new, luxurious 5-star Mövenpick Hotel and Resort, Jordan Valley Marriott and Kempinski Ishtar Hotel, as well as the 4-star Dead Sea Spa Hotel. The main attraction of the Dead Sea is of course the soothing, highly concentrated salt water itself. The salt content is 31.5%. The water carries so well that it is almost impossible to sink into it. In addition, the seawater contains 21 minerals in high concentrations, such as magnesium, sodium, potassium and bromine. Twelve of them are not found in any other body of water on earth.

Studies have found that the waters of the Dead Sea, combined with the mineral-rich black mud of the coast, are extremely healthy and, among other things, stimulate circulation, relieve arthritis discomfort, cure allergies, and invigorate the skin.

<u>Day 04</u>	<u>Program</u>	<u>departure</u>	<u>Arrival at the hotel</u>	<u>Distance</u>	<u>Driving Time</u>	<u>Overnight</u>	<u>meals</u>
	Dead Sea – Madaba – Mount Nebo – Kerak – through the Kingsway – Petra – Petra Kitchen Self Cooking Dinner	08:00	18:00	210 km	4 hours	Petra	B/-/D

After breakfast we drive to Madaba & Mount Nebo,

**Madaba** is also called the city of mosaics. The main attraction is the Byzantine Palestine mosaic in the Greek Orthodox Church of St. George. Originally it consisted of two million mosaic pieces and had a size of 25x 5 meters. The mosaic shows hills, valleys, villages and towns up to the distant Nile Delta.

**Mount Nebo**, this is the place where Moses was buried, and it is the most revered holy place in Jordan. From the top of the mountain, like Moses, you can admire a wide panorama that stretches from the Jordan Valley and the Dead Sea via Jericho to Jerusalem and is often referred to as the Holy Land. For centuries, the mountain has been a Christian pilgrimage site, and as early as the late 4th century, the first church was built on the Nebo to mark the place of Moses' death.

<u>Day 05</u>	<u>Program</u>	<u>departure</u>	<u>Arrival at the hotel</u>	<u>Distance</u>	<u>Driving Time</u>	<u>Overnight</u>	<u>meals</u>
	Petra Full Day visit – Hotel Petra	08:00	18:00	5 – 6 KM hike		Petra	B/-/D

**Petra** – probably the most fascinating sight in Jordan. Petra is one of the seven new wonders of the world and inspires with its imposing architecture. The city was built by the Nabataean tribe more than 2000 years ago. Through the Siq, a 1.2km long gorge with rock walls up to 100m high, you can reach the interior of the mountains on foot or with a horse-drawn carriage. The first thing you see is the stunning façade of the Treasury, called Al Khazneh. It is believed that gold, precious stones and other treasures were kept in this treasure house. Crowned by the urn on the top. The façade of the treasure house is about 45m high and 30m wide and was built in the 1st century BC. It is believed that it was originally a tomb for a Nabataean king and was later used as a temple. In addition to many other sights in Petra, which you can not explore even on a one-week visit, there is the monastery – Al Deir. Around 800 steps lead up to the imposing building, which consists of 45x50m buildings. But there is so much more to discover, experience it for yourself!

<u>Day 06</u>	<u>Program</u>	<u>departure</u>	<u>arrival</u>	<u>Distance</u>	<u>Driving Time</u>	<u>Overnight</u>	<u>meals</u>
	Petra – Wadi Rum (Jeep Tour) – Tent Camp	09:00	11:00	160 km	2 hours	Wadi Rum	B/-/D

**Wadi Rum**, the desert valley of the Bedouins, framed by brown-red, rugged and torn mountain ranges, will impress you. The mountains around Wadi Rum, which reach their highest heights at 1254 m (Jabal Rum), are made of granite and sandstone. This typical stone structure explains the large number of springs especially in the narrower area of rum; Rainwater from winter precipitation slowly penetrates the porous sandstone, eventually encounters the impermeable granite and flows down to the slope on this level; springs then spring up there, often dozens of meters above the valley floor. Therefore, it does not wound that already in the Neolithic Age (from about 8000 BC) the first peasant families the soil around the rock pieces cultivated.

	Wadi Rum – Aqaba - This day is at leisure in Aqaba	09:00	10:00	80 KM	1 hour	Aqaba	B/-/D

Today enjoy a free afternoon in Aqaba. You can take a glass boat tour, snorkel to one of the wide beaches or take a dive. The city invites you to a tour in the evening. Always negotiate in a variety of shops and discover one or the other gift or souvenir. In one of the rich restaurants, you should try a freshly squeezed juice or lemon with mint, also a hookah.

<u>Day 08</u>	<u>Program</u>	<u>Distance</u>	<u>Driving Time</u>	<u>Overnight</u>	<u>meals</u>
	After Breakfast – Return flight from AQJ Airport Aqaba Via Amman Airport QAIA	30 km	30 minutes		B/-/-

Aqaba - Transfer from the hotel to Aqaba airport return flight. This is where your HUSSAM TOURS service ends. We wish you a good return flight.
